Cut along this line and tear off at fold.

You are cordially invited to join

AMERICAN HEMEROCALLIS SOCIETY

Annual dues \$3.50, includes Yearbook and Quar-
terlies. Send check to

Mrs. Olive Hindman, Secretary

404 Weigle Avenue

Sebring, Florida

TUDAYLILIES

\$6.00 each; any three, \$15.00

ADVANCE (1953) Dor. 38". Deep golden yellow, slightly recurved 4½" flowers with medium-narrow petals and sepals, with some brown on the outside. Fragrant, and open 48 hours. May-June and Sept. to freezing.

DUPLICATE (1956) Dor. 34". Golden yellow fragrant 3¾" flowers in May-June and again Sept. to freezing. Parentage: *H. flava* X *H. Middelndorfii*. Duplication of results inspired the name. Remains open 48 hours.

MARK TWAIN (1956) Dor. 35". Golden yellow 3½" fragrant flowers with medium-wide petals and sepals, slightly recurved. Remains open 48 hours. May-June and Sept. to freezing.

OOLONG (1956) Dor. 38". Orange-yellow fragrant 4" flowers, slightly recurved. Remains open 48 hours. An occasional flower lasts three days, hence the name. May-June and Sept. to freezing.

REPEATER (1952) Dor. 43". Golden yellow slightly recurved flowers with petals, sepals and size like ADVANCE, but lighter color. Remains open 48 hours. May-June and Sept. to freezing.

TUDAY (1952) Dor. 36". Orange-yellow, broad petaled, slightly crinkled 3½" fragrant flowers. High-branched, the numerous clusters of trumpet-like blooms seem to float in the air. Remains open 48 hours. May-June and Sept. to freezing.

TUDOR (1953) Dor. 38". Orange-yellow fragrant 4½" flowers, slightly recurved. Petals and sepals intermediate, neither wide nor narrow. Remains open 48 hours. May-June and Sept. to freezing.

LONG BLOOMING HEMEROCALLIS

\$4.00 each; any three, \$10.00

BEAUTIFUL DREAMER (1956) Dor. 38". Light yellow fragrant 4" flowers with wide petals and narrow sepals, tinged green on the outside. Remains open 24 hours. May-June.

DREAM CASTLE (1956) Dor. 48". Orange-yellow fragrant 4½" flowers with narrow petals and sepals. Remains open 24 hours. June-July.

DREAM IMAGE (1956) Dor. 44". Pale yellow fragrant 4" flowers with narrow petals and sepals. Remains open 24 hours. June-July.

DREAMLAND (1956) Dor. 46". Pale yellow fragrant 4" flowers with wide petals and narrow sepals, tinged green and brown on the outside. Remains open 24 hours. Proliferates. June-July.

DREAM VISION (1956) Dor. 43". Buff yellow fragrant 3½" flowers with wide petals and narrow sepals. Remains open 24 hours. June-July.

PLEASANT DREAM (1956) Dor. 45". Pale lemon yellow fragrant 4½" flowers with wide petals and narrow sepals, tinged green on the outside. Remains open 24 hours. June-July.

TUDAYLILIES provide double display value in or out of the garden, and generally, twice a year! Their flowers open during daylight and not only remain open ALL night but all NEXT day, all NEXT NIGHT, and close on the SECOND DAY (48 hours) after opening! No Hemerocallis blooms earlier, none later when established.

HEMEROCALLIS SEEDS

Some amazing originations, in a full color range, have been produced by our efforts to extend the bloom longevity of this ideal perennial. Naturally produced seeds from these plants are now available for a longer display of beauty at low cost. For mass public or private landscaping, local nursery sales, or just beautifying the farm, home or business grounds, where names are not important, fine plants can be raised economically from these rare seeds:

BUCHEM SEEDS - Collected from plants whose blooms remained open from 24 to 48 hours, mixed: 10 for \$1.00; 25 for \$2.25; 50 for \$4.00; 100, \$7.00

DAYLILY SEEDS - From plants that bloomed up to 24 hours, mixed: 20 for \$1.00; 50 for \$2.25; 100 for \$4.00

PLEASE NOTE: There is no assurance that plants raised from these seeds will bloom as long as their parents. Unknown combinations of genes are present, but the resulting plants should bloom longer than ordinary day-lilies and some could even beat the parents, depending upon what the bees visited first. You could be surprised.

TUDAYLILIES

AND OTHER

LONG BLOOMING HEMEROCALLIS

FOR YOUR GUIDANCE

ORDERS filled in rotation as received and as stocks permit. Requests for special shipping dates honored during season.

SHIPMENTS made from about April 10 to August 31. Later orders will be held for spring delivery. None sent outside U.S. at present.

TERMS, cash with order.

If air delivery is desired, add \$1.00 per plant. Otherwise we prepay postage.

PLANTING RECOMMENDATIONS—Spring or early summer in locations where ground freezes. In the south, any time during above shipping season. Descriptions are based upon performance here of established plants, and proper allowances should be considered for your locality. All are registered by American Hemerocallis Society.
